the concise encyclopedia of world history offers the global reading public students and professors a handy complete and accurate guide to all political formations since the beginning of history it reaches into pre history through the inclusion of the important families of languages spoken today it also tracks ethnic groups especially nomadic which have been influential in the creation of civilizations and states the entries on existing independent states include up to date political facts and statistics they mention each country s world heritage sites to complement the individual entries in this encyclopedia there is an extensive commentated world historical chronology a special feature in this work is the inclusion of individual political chronologies for ancient civilizations and important countries and regions the world over to round out this easy to consult and thoroughly researched work there is a cross referenced index especially designed for provinces cities and other entities which have no entries of their own but appear in the entries sometimes prominently as for example abu dhabi in the united arab emirates or amritsar in india

university press returns with another short and captivating story a brief history of the world any summary of world history is bound to be laughably crude and incomplete even multi volume or semester long attempts to distill the innumerable events of our watery planet fail to capture the fullness and depth of the story but this is no reason to abandon the pursuit of historical knowledge history is a story it grants us access to the laboratory of human experience it helps us understand people societies and our connections to them it contributes to empathy and moral understanding history teaches us how the world works this world history book is shorter than most and therefore it is even cruder and more incomplete than most if you have the time to read a multi volume history of the world we recommend that you do but in the meantime this short book tells an abbreviated version of the unlikely story of the forces events and people that have changed the world a version that you can read in about an hour

chronologically discusses the events of history beginning with the evolution of man and ending with the restructuring of western europe in 1993

so far histories of historiography have concentrated almost exclusively on the west this is the first book to offer a history of modern historiography from a global perspective tracing the transformation of historical writings over the past two and half centuries the book portrays the transformation of historical writings under the effect of professionalization which served as a model not only for western but also for much of non western historical studies at the same time it critically examines the reactions in post modern and post colonial thought to established conceptions of scientific historiography a main theme of the book is how historians in the non western world not only adopted or adapted western ideas but also explored different approaches rooted in their own cultures

about 5 000 years ago the first urban societies developed laying the foundations for the first civilizations nearly all civilizations share the same few features they

have abundant food surpluses contained cities political bureaucracies armies defined religious and social hierarchies and long distance trading ancient egyptian culture flourished between c 5500 bce with the rise of technology as evidenced in the glass work of faience and 30 bce with the death of cleopatra vii the last ptolemaic ruler of egypt it is famous today for the great monuments which celebrated the triumphs of the rulers and honored the gods of the land the culture is often misunderstood as having been obsessed with death but had this been so it is unlikely it would have made the significant impression it did on other ancient cultures such as greece and rome neolithic means e new stone e even though agriculture was the crowning achievement of the period civilizations started out small agriculture at first tended to tie only small groups together these groups also all settled along rivers important as a reliable and predictable source of water as time passed families usually worked the same plot of land over successive generations leading to the concept of ownership ancient mortars and grinding tools unearthed in a large mound in the zagros mountains of iran reveal that people were grinding wheat and barley about 11 000 years ago grass pea wild wheat wild barley and lentils were found throughout the site including some of the earliest known samples this was much further east than most sites known for early agriculture this book furnishes with utmost facility to all classes of readers the needed information on ancient civilization the unusual variety of the subject makes this a work of endless fascination
