develop lean ios and android apps using industry standard techniques and lean development practices about this book build ready to deploy apps with less iterations and shorter development times adopt the lean startup methodologies to develop ios and android apps that shine in the app store this hands on guide puts continuous innovation into practice to develop successful mobile apps who this book is for this book is for developers ctos and architects working for a startup or another kind of lean startup environment such as start up within a cooperation it is ideal for any ios and android developer who wants to build successful mobile apps by adopting the lean startup methodology what you will learn apply the lean startup methodology to real android and ios development define what your hypotheses are by creating an minimal viable product validate your idea against the business model canvas gather feedback through statistics and by getting user comments learn from it and adapt your app accordingly develop skills and devise strategies to build versatile and flexible apps that meet changing business requirements investigate the possibilities when you need to pivot your start up idea whether in a startup or an established business create a successful app and get tips on how to boost conversion and how to optimize the on boarding process in detail lean is the ultimate methodology for creating a startup that succeeds sounds great from a theoretical point of view but what does that mean for you as a technical co founder or mobile developer by applying the lean start up methodology to your mobile app development it will become so much easier to build apps that take google play or the app store by storm this book shows you how to bring together smarter business processes with technical know how it makes no sense to develop a brilliant app for six months or longer only to find out later that nobody is interested in it build a minimum viable product mvp first validate your hypotheses early and often discover effective product development strategies that let you put facebook's famous axiom move fast and break things into practice a great app without visibility and marketing clout is nothing so use this book to market your app making use of effective metrics that help you track and iterate all aspects of project performance style and approach this book takes a hands on approach to developing apps through the lean start up methodology following a 50 business and 50 tech approach this book is filled with practical examples and real world experiments

one of the best books i have read on investing in years bill ackman founder and ceo pershing square capital management from a successful investor and a contributor to barron's and fortune comes a once in a lifetime book that gives modern investors what they need most a fresh guide to making money in a stock market now dominated by tech stocks technological change is reshaping the economy in a way not witnessed since henry ford introduced the assembly line a little more than ten years ago only two of the ten most valuable publicly traded companies in the world were digital enterprises today they comprise eight of the top ten investors around the world are struggling to understand the digital age and how they can use the stock market to profit from it author adam seessel understands several years ago he watched his old school portfolio built using traditional value investing principles decline while the market driven by expensive tech stocks advanced determined to reverse course he set off in search of a new investment paradigm one that remained true to the discipline that ben graham gave us a century ago while reflecting the new realities of the digital age in this helpful take on playing the stock market publishers weekly seessel introduces a refreshed value based framework that any investor professional or amateur can use to beat the modern market like all sectors the tech sector follows certain rules we can study these rules understand them and invest accordingly the world is changing and we can profit from it approaching tech

this way the economy's current changes and the rapid rise of tech stocks are not reasons to be frightened or disoriented they're reasons to be excited infused with the same kind of optimism and common sense that inspired benjamin graham's the intelligent investor and peter lynch's one up on wall street where the money is ushers in a new era of modern value investing

about the book the burning man the storied ritual of self expression has evolved into the burning entrepreneur the ultimate self expression through start up success renowned tech investor and start up guru brad feld lights you on fire with this insider's book that will teach you how to launch fund and run your own company if you're already an entrepreneur or have always dreamed of being one douse yourself in feld thoughts and catch the spark you'll be burning entrepreneur with this e book brad's blog is a backstage pass to the 24/7 rock show that is tech startups it is a master class in startup investing for givers and takers of funds it is a rolling critique of tech products vast and simple with enough edge to make the most scathing restaurant critic in manhattan blush and it is the journal of a peripatetic marathoner who still believes he will crack the four hour mark someday from such feld thoughts we have constructed the burning entrepreneur the e book on startups that you would take to a desert island if it had electricity a decent internet connection and angel investors the burning entrepreneur illuminates the actions and attitudes required to launch fund and ignite your startup brad feld is on fire find out what happens when you stand too close table of contents introduction be on fire be in love with your business don't be in the 99% ignorance is success meet the new boss not the same as the old boss hire the right people it's the product stupid learning to program a case study i don't hate marketing neither should you ok it's really the money stupid keeping your you know what together burning examples conclusion recommended books for burning entrepreneurs great excerpts from the book it was during that car ride that my dad hit me with words that would prove to be fundamental for me if you aren't standing on the edge you are taking up too much space thirty years later that line continues to be a defining characteristic for how i live my life i'm constantly pushing looking for the edge of whatever i do pg 14 over time i've learned that none of the short term moves in the stock market matter at all in my life it's occasionally entertaining to turn on cnbc and see my friend paul kedrosky in the octobox telling all the other people that they don't actually understand macro economics but it's no different than watching mcenroe when he's announcing a nadal federer match it's just sport pg 33 i don't create products anymore i invest in companies that create them but i'm a great alpha tester i've always been good at this for some reason bugs just find me while my ux design skills are merely adequate i've got a great feel for how to simplify things and make them cleaner pg 58 if you are someone who spends 30 minutes or more a day organizing yourself i encourage you to step back and think about what you could change and how that might shift you from focusing on organizing to working toward outcomes it's liberating pg 103 buy a copy to read more
